Remote Work Policy

Work location and availability

This fictional policy allows eligible team members to work remotely when their duties can be completed securely off site. Keep the team calendar current, join scheduled meetings on time, and let the team lead know when your working location changes during the day.

Remote Work Policy

Equipment and information

Use approved devices and a private network connection for work systems. Store work files only in the designated workspace, lock the screen when away, and report a lost device or suspected information exposure promptly to the service desk.
